

Thank you to the Eastern Counties Committee & my 2 stewards for a friendly show at their new venue & thank you for allowing my request to judge outside in the afternoon; fortunately the weather was kind to us. A few observations on the dogs before me on the day. What is happening to the long blunt wedges with slight but definite stops? Far too many short two piece heads with flared & deep-through skulls. As normal a lot of short steep upper arms which naturally showed in movement? A big variation as usual in size & lots of short tails. Lastly teeth, I was shocked on how many had dirty or missing teeth; there is no excuse for this! Having said that I found my main winners pleasing.
