I thank Manchester Dog Show for my invitation to judge this beautiful breed and thank the exhibitors for their support. I enjoyed my judging but would highlight that front and especially rear movement needs attention and also some quality dogs were relegated down the line due to dental hygiene problems. I was very satisfied with my winners and I congratulate the Best of Breed on being short-listed in the Group.

**MPD** (7,1) 1 Fisher's Shellamoyed Black Klansman, a very promising b/w 7 month old youngster who has an attractive appearance which although he obviously is a babe possesses all the basic breed characteristics especially a pleasing head both in shape and expression. Well developed in bone and satisfying substance of body which is well coated. Pleasing to note that he is sound in basic construction for his age and is one that shows great potential. Moved well with confidence and especially good front action. 2 Pattinson's Kyleburn Hidden Dream TAF, an 8 month old smart sable who has a lovely head with dark well shaped eyes giving an alert expression. True well boned front but tended to stand narrow, pleasing body substance with moderately angled hindquarters and low hocks. Pleasing size but needs to mature and tighten to be at his best.
