MPD 1 Lycett, Iliad Isle Delight. Promising 7 month old. Head developing, has length with dark eye well placed. Pleasing outline and soundly constructed. Straight limbs with suitable bone. Shapely ribcage with level back and gentle slope to croup and low set tail. Moved steady.

PD (3,1) 1 Stafford, Rannerdale Showmaster. Quality written all over this lad, great prospect. Very well balanced in outline being a little longer than height. Proportioned head with appealing attributes and beautiful expression. Clean forehead with proud head carriage. Good bone with deep brisket and well sprung ribcage. I liked his topline, well made hindquarters and low set hocks. His well presented sable coat has texture and enhanced body shape enabling beautiful flowing lines. Totally sound when settled. BP RDCC. 2 Gladwell, Moonlight Bi Blue Wind And Fire Through Jot. B/m that was rather out classed here. Quite well made but as yet low on leg which spoils balance. Head to develop and has time. Coat with texture, well presented.

Well fitting coat but would prefer a harsher texture. 2 Rutterford, Kelgrove Midsummer Blue At Stormhead. This B/m presents a balanced outline and carries his developing head well. Needs to develop in front still and can stand a little narrow. Firm loin and low tail set with well swept stifle and a sound mover. Level topline with slope to croup and low tail set. Covered the ground with ease and his textured coat was well presented. 2 Evans, Shadoway Lucky Strike. I liked this lad, particularly his profile.
